

NATIVE POLLINATOR-ATTRACTING PLANTS

Bloom Period	Common name	Latin name	max ht	Flower color
EARLY	Foxglove Beardtongue	Penstemon digitalis	3'	white
EARLY-MID	Lance-leaved coreopsis	Coreopsis lanceolata	3'	yellow
	Wild indigo	Baptisia tinctoria	3'	yellow
MID	Blazing Star	Liatris spicata	4'	purple
	Butterfly milkweed	Asclepius tuberosa	3'	orange
	Great Blue lobelia	Lobelia siphilatica	3'	blue
	Mountain mint	Pycnanthermon spp.	3'	white
	Purple Coneflower	Echinacea purpurea	4'	purple
	Wild Bergamot	Monarda fistulosa	4'	purple
MID-LATE	Helen's flower	Helenium autumnale	5'	yellow
	Joe Pye Weed	Eutrochium maculatum	7'	pink
	Wingstem	Verbesina alternifolia	6'	yellow
LATE	Bottle Gentian	Gentiana andrewsii	2'	blue
	New England Aster	Symphiotricum novae-angliae	6'	purple
	New York Ironweed	Vernonia noveboracensis	7'	purple
	Seaside goldenrod	Solidago sempervirons	6'	yellow
	Wrinkleleaf goldenrod	Solidago rugosa	3'	yellow
NOTE: many non-native plants are important for pollinators. Some suggestions:				
EARLY	Winter aconite	Eranthus hyemalis		
	Crocus spp			
	Lenten rose	Helleborus orientalis		
	Lungwort	Pulmonaria		
	Primrose			
	Snowdrops -single flowered			
LATER	Anise hyssop	Agastache foeniculum		
	Bergenia			
	Borage			
	Chives			
	Common milkweed	Asclepias syriaca		
	Cornflowers			
	Cosmos			
	Lavender			
	Oregano			
	Rosemary			
	Russian Sage			
	Salvia			
	Sedum			
	Sunflower			
	Thyme
